

Chapter

1

Human Body

Focus on

- Parts of our body
- Our sense organs
- Growing up

Learning Objectives

1. Name body parts
2. Name five sense organs
3. Explain what body parts and sense organs do

Warm Up

Robin and Edison are playing and reciting a poem about the human body.

You can read the poem too.

Ten little fingers
Ten little toes
Two little ears
And one nose that blows
Two eyes for looking
At everything in sight
A pair of smiling lips
To wish you
Good night

Parts of Our Body

Our body has many parts. Each part has its own name and function. Let's look at the different parts of our body carefully.

How many eyes do you have?

How many ears do you have?

How many legs do you have?

How many fingers do you have?

Scan Me!

Each part of our body does different activities.

Our hands help us to

write

hold

eat

Our legs help us to

jump

walk

run

Remember and Recall

Write the name of the body parts used by Pascal below.

1.

2.

3.

4.

Our Sense Organs

We have **five sense organs**. They are eyes, ears, nose, tongue, and skin. They help us to know about different things in our surroundings.

Eye

Ear

Nose

Tongue

Skin

We have two eyes. Our **eyes** help us to **see**.

✦ Nifty Insight ✦

Skin is the largest sense organ that covers our entire body.

We have two ears. Our **ears** help us to **hear**.

We have one nose. Our **nose** helps us to **smell**.

Our **skin** covers our entire body. It helps us to **feel**. We can feel how soft a teddy bear's fur is when we touch it.

We have one tongue. Our **tongue** helps us to **taste**. We can lick an ice cream and taste its flavour.

Growing Up

See, the tiny baby is you. Now we are getting bigger.

Wow! We have grown so much since then.

Children grow up to become adults. The father, mother, uncles, aunts, and grandparents in the family are called adults. Adults are grown-up people.

Key Terms

Adults : grown-up people

Sense organs : parts of our body that help us to know about different things in our surroundings

Points to Reflect

- Our hands help us to write and eat.
- Our legs help us to walk, jump, and run.
- We have five sense organs. These help us to see, hear, smell, taste, and feel.

Assess Yourself

A. Choose the correct answer.

- Our eyes help us to _____.
a. taste b. smell c. see
- Our ears help us to _____.
a. smell b. hear c. walk
- Our _____ helps us to taste our food.
a. mouth b. nose c. tongue

B. Check (✓) the correct statements and cross (X) the wrong ones.

- We have three eyes.
- We eat with our ears.
- Our nose helps us to smell.

C. Identify the part of the body shown below.

- Name it. _____
- What is this part used for?

- D. Pascal is riding a bicycle. He is using his legs to pedal the bike. Is he using any other body parts too? If yes, name them.
- _____

Critical Thinking

E. Draw lines to connect the body parts to their names.

Picture Based Analysis

Nose •

• Eye

Neck •

• Finger

Hair •

• Shoulder

Knee •

• Stomach

F. Answer the following questions.

Application

1. Which parts of your body help you to:

a. kick a ball : _____

b. hold a book : _____

c. write a poem : _____

2. How many sense organs do you have?

I have _____.

G. Look at the pictures and complete the missing letters.

1.

W _ _ T E

3.

R U _

2.

S _ _ L L

4.

T _ S _

H. We can taste sweet, salty, bitter, and sour things.

Life Skills and Subject Integration

Identify the taste of the foods below.

1.

3.

2.

4.

Think Green

To keep our bodies clean, fresh, and healthy, we should take a shower every day. But do not waste water—use only what you need.
